

# Coming from Ukraine: Register your pet dog, cat or ferret

Have you brought your pet dog, cat or ferret (pet) from Ukraine to Denmark due to the current Russian invasion? The Danish Veterinary and Food Administration ask you to provide us with relevant information concerning your pet animal.

Use QR-code  
to fill in a form

Rabies is present in Ukraine!

Pet dogs, cats and ferrets can be carriers of the rabies virus.

In order to secure that Ukrainian pets do not pose a serious risk to human or animal health in Denmark, the Danish Veterinary and Food Administration must perform official control on all pets coming from Ukraine. It is important that you fill in the form and send it to us as soon as possible.

Ministry of Food, Agriculture  
and Fisheries of Denmark
